

Sony XM5 Quickstart Guide

In order to ensure ease of use in an aircraft, we recommend changing several settings in the “**Sony | Sound Connect**” app on a mobile device. Just install the app, pair your headphones, and follow the steps below.

The “***Speak-to-Chat***” feature will mute incoming transmissions when the headphones detect your voice.

- Navigate to the “**Sound**” tab.
- Ensure the “**Speak-to-Chat**” setting is **disabled**.

The “**Automatic Power Off**” function will shut off the headphones after being removed. This will deactivate the Noise Cancelling of the system.

- Navigate to the “**System**” tab.
- Ensure that “**Automatic Power Off**” is **disabled**.

The Sony XM5 headphones are also equipped with **capacitive touch controls**. Settings can be accidentally adjusted while flying.

- Navigate to the “**System**” tab.
- Ensure that “**Touch Sensor Control Panel**” is disabled.

Adjusting these settings will ensure that your flights go as smoothly as possible!

Installation Instructions

Care Must be taken when installing and removing the Harmony System.

To Connect:

- Grasp the Harmony at the feather logo and gently push the 3.5mm plug straight into the headphones (push until you feel / hear it snap into place. The Harmony will fit securely and should not fall out when installed correctly.

To Disconnect:

- Gently lift up the ear cushion, revealing where the retention clip attached to the frame of the headphones.
- Using one finger, apply gentle downward pressure to the top of this clip. It should detach from the headphones.
- Grasp the feather logo and gently pull the Harmony straight out.
